

"At the end of the day, the goals are simple: safety and security."
The Honorable Jodi Reil

In recent years, shopping malls have fallen victim to various forms of violence.

Headlines are littered with theft, suicides, flash mobs, shootings, bombings, and outright attacks on malls across the globe.

MallCast was designed to provide mall managers with the tools to maintain a safer shopping experience for both tenants and patrons alike.

Our flexible alert and rapid notification system enables mall managers to effectively communicate via voice messages, text to speech, enhanced e-mail, and SMS text messages.

Safeguard your mall and communicate with every tenant, anytime, anywhere, on multiple devices with MallCast Rapid Notification.

MallCast Features

Emergency Quick Launch

Phone Calls in Your Voice or Text to Speech
