

"Effective teamwork begins and ends with communication." - Mike Krzyzewski

SPORTSCAST is a proven mass notification software that empowers you with the ability to reach your members via voice, sms text, text to speech, advanced email, and social media!

Imagine the impact effective and timely communication could have on your organization!

- Cancelled Practices
- Weather Emergencies
- Team Member Injuries
- Game Relocations
- Schedule Changes
- Team Meetings
- And More!

Coaches, managers and organizers have saved time and money reaching their teams and groups with SportsCast since 2008.

How could your team benefit from better communication?

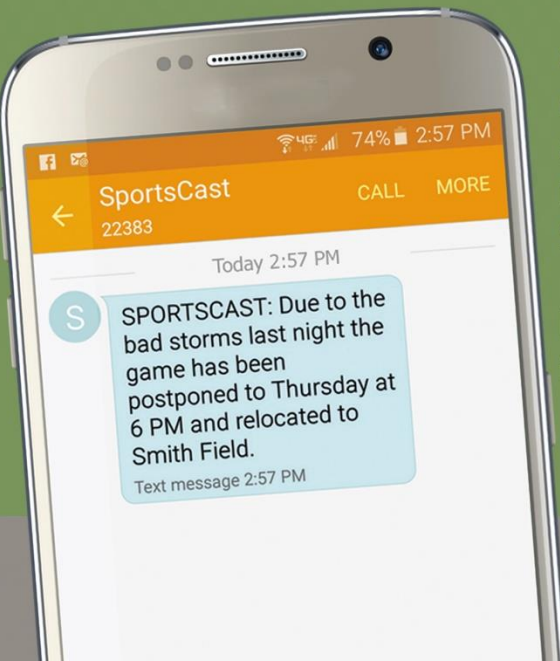

HOW IT WORKS

The nerve center for your SportsCast Notification System is the Web Portal. From here you can: send (or schedule) alerts, integrate contact information from your data management system, sync social media accounts, assign user privileges, manage account details, create and store message templates, judge the success of your alerts by advanced reports and more!

Plus, you have the option to provide coaches, team members and other organization members the opportunity to edit contact information with their own login!

KEY FEATURES

-  Phone Calls in Your Voice or Text-to-Speech
-  SMS Text Messaging
-  Email Messaging with Advanced Analytics
-  Social Media Integration
-  Recipient Language Preferences
-  Automated Severe Weather Alerts
